## Projects

**Shopping Cart:** <https://github.com/Strebig/wicked-sales/tree/dev>

- ECommerce store built with React, APIs, Javascript, CSS3, Bootstrap, MySQL & PHP
- View products that are uploaded into the database, add multiple items to the cart, and checkout with validation. Once a user successfully checks out, the purchase is uploaded to the DB

**Property Management System:** <https://github.com/Strebig/sgt-react/tree/dev>

- 2 Portals built with React, APIs, Javascript, CSS3, Bootstrap, MySQL, Apache, AWS & PHP
- Property manager portal allows you to upload properties, and keep track of tenants/payments
- Tenant portal allows you to view information of your property, and submit repair requests
- Repair Requests become visible for Property Managers to either Approve/Deny the request

**Memory Match Game:** [https://github.com/Strebig/memory\\_match/tree/dev](https://github.com/Strebig/memory_match/tree/dev)

- Card Matching Game Built with Javascript, Bootstrap, CSS3, & HTML5
- 18 Cards/9 matching combinations. Match all images to win the game before no attempts remain
